

Sprint Report Template - CSE 115A – Software Methodology

Sprint #3 Report, RentWise, RentWise727, 11/19/2024

- **Actions to stop doing:** These are the activities or actions the team determined they should stop doing. This is the answer to the question, "What things should we stop doing?" The items should take the form of a brief description of what the team wants to stop doing, followed by a brief explanation. If there are no items, this section should describe why the team is completely satisfied with their current process.
Examples: The team should stop holding daily scrum meetings at 7am in the morning, because nobody can make that meeting time. The team should stop allowing daily scrum meetings to go over 15 minutes, because the meetings are less effective that way.

- **ineffective communication**

- **Actions to start doing:** These are the activities actions the team would like to start doing to improve their development process. This is the answer to the question, "What should we start doing?" The items should take the form of a brief description of what the team wants to start doing, followed by a brief explanation.
Examples: The team should schedule m should be more accurate at estimating work tasks, since tasks were consistently more group work sessions, since these are very effective at getting work done. The teander-estimated last sprint.

- **In person work meetings**

- **Actions to keep doing:** This is the answer to the question, "What is working well that we should continue to do?" The items should take the form of a brief description of what the team wants to start doing, followed by a brief explanation.

- **Daily scrums**

- **Work completed:** This is a list of the user stories that were completed during the previous sprint, and a list of the user stories not completed during this sprint (but which were part of this sprint, and were in the sprint plan).
 - As a user, I want to be able to filter out listings based on my personal desires.
 - As a user, I want to visually pinpoint potential listings on a map in my area.
 - As a seller, I want to be able to effectively track and manage my listings

Work not completed:

- **Work completion rate:** This section should report the following: total number of user stories completed during the prior sprint. Total number of estimated ideal work hours completed during the prior sprint. Total number of days during the prior sprint. For the previous sprint, the user stories/day and ideal work hours/day figures should be reported. For sprints past the first sprint, this section should also provide the average user stories/day and average ideal work hours/day figures computed across all sprints to date. The final sprint burnup chart for the previous sprint should be available for viewing in the lab and an email of this chart sent to the TA/prof.

Burnup Chart

Date - November 5th, 2024 - November 19th, 2024

Sprint goal - Implement search/filter queries and make deployable website
